- [bologah-portfolio.vercel.app](#)

SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive UI, Progressive Web Apps

Backend & APIs

REST API integration, Authentication, Backend workflows, Third-party integrations, SMS gateway integration

Databases & Cloud

Firebase Authentication, Cloud Firestore, MySQL, MongoDB, Prisma, Vercel

Tools

Git, GitHub, VS Code, Postman, Capacitor, Android Studio

Practices

Debugging, Testing, Code review, Agile development, Component-based development

EDUCATION

BSc. Computer Engineering

Kwame Nkrumah University of Science and Technology (KNUST)
Kumasi, Ghana | 2025

TRAINING & LEADERSHIP

AI Career Essentials

ALX Africa | 2024

Group Leader

Association of Computer Engineering Students, KNUST

- Final Year Research Project
- Microprocessors Project
- Entrepreneurship Project

PROFILE

Junior Full-Stack Developer with 2 years of hands-on software development experience. Builds web applications with React, Next.js, TypeScript and JavaScript, with practical experience in APIs, authentication, databases, third-party integrations and deployment. Comfortable working from interface development through data handling and backend integration.

PROFESSIONAL EXPERIENCE

Software Developer / Full-Stack Developer

Hapa Web Solutions (HWS)

- Built and deployed the Digital Visitor Log System for visitor registration, staff management and company administration.
- Developed responsive dashboards and workflows using Next.js, React, TypeScript and Tailwind CSS.
- Integrated Firebase Authentication, Cloud Firestore and the SMS Online GH API for authentication, data management and visitor verification.
- Worked across frontend and backend workflows, including API integration, data handling, testing, debugging and production deployment.
- Configured Vercel deployments and supported production troubleshooting, Git-based development and code reviews.

Software Development Intern

Sims Technology | 2025 – 2026

- Contributed to web application development using React, Next.js, TypeScript and Firebase.
- Implemented features, fixed issues, tested functionality and worked with Git and GitHub.

SELECTED PROJECTS

Digital Visitor Log System

Hapa Web Team Project

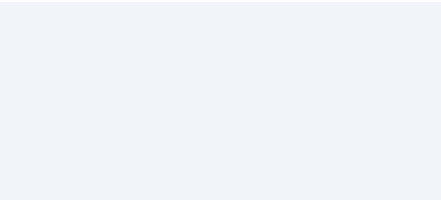

- Developed a cloud-based visitor management platform with company, staff, visitor and administrative modules.
- Implemented authentication, Firestore data management, SMS verification, visitor check-in/check-out, analytics dashboards and PWA support.

EarnConnect – Workforce & Job Marketplace

Under Development

- Building a full-stack platform for workers and employers using Next.js, React, TypeScript, Tailwind CSS, MySQL and Prisma.
- Current work includes authentication, user accounts, job workflows, database integration and API-driven features.

ServiceLink – National Service Placement Platform

Under Development

- Developing a PWA concept connecting National Service personnel with organizations offering placement opportunities across Ghana.
